

NEWS ON THE WIND

Investing in Green Energy. Strengthening Local Communities.

LATEST NEWS

Though the conditions are cold and windy, our construction team continues to make good progress on-site.

Currently, we have **27 turbines** in various stages of assembly, of which **eleven turbines** are completely erected. See the progress from the top of this turbine nacelle!

To erect the turbines, we have a new crane on-site that was shipped from Germany to the Halifax Harbour Port. It is the Liebherr LG 1750, capable of lifting 750 Metric Tonnes. Take a look!

Our site workers have now clocked 310,000 person- hours and we have over 200 people working on-site.

We plan to complete the project this Spring. You can follow our progress though our construction infographic at: www.southcanoewind.com/ConstructionProgress.aspx.

TURBINE DELIVERIES

A **BIG THANK YOU** to the local community for your patience over the last four months as we delivered turbines to site. To date, we have delivered 27 turbines and will wrap up deliveries in February.

We will continue to deliver turbine components Mondays - Saturdays, weather permitting. **Due to winter weather, we have asked turbine**

component truck drivers to drive slowly and ask that local drivers use the same caution when approaching the delivery trucks.

Please check our GPS tracker to view where the turbines are located on the road. www.southcanoewind.com.

COMMUNITY LIAISON COMMITTEE

Our CLC met on Monday January 26th and discussed the sponsorship fund, received feedback on turbine deliveries and also heard a project update from Project Manager Sean Brennan.

Isaac Comeau, Acadia University student studying Community Development, also attended the CLC meeting and will be joining the South Canoe team for a 6 week placement starting in February. He is familiar to the area, having family ties to New Ross, and will be lending a hand to the communications and engagement work on the project. Welcome to the team Isaac!

The next CLC meeting will be held on Monday March 23 from 6:00-8:00pm (location TBD - see next newsletter for details). All are welcome.

CONTACT US - This newsletter, and others to follow, will keep you informed of project planning as well as what is happening on site. Please visit www.southcanoewind.com to view previous newsletters and feel free to contact Mary-Frances Lynch at (902) 684-1104 or info@southcanoewind.com to learn more about the project.

We will be mailing out a bundle of the monthly newsletters on a quarterly basis. Monthly digital copies are available electronically. Let us know if you'd like to be added to the electronic distribution list.
