

# NEWS ON THE WIND

Investing in Green Energy. Strengthening Local Communities.

## LATEST NEWS

Earlier this month, we completed deliveries of the turbine components. We are happy to say that there were no major incidents or injuries during the deliveries, due to the cooperation of our drivers, local businesses, and residents.

Some of our delivery highlights:

Through challenging winter conditions, we made a total of **340 deliveries** to site from Liverpool and Trenton.

The school board and wind farm worked together to ensure **no conflicts between the school bus schedule and delivery trucks.**

A **GPS tracking system** was enabled on our website to allow local residents to plan their daily commutes around the deliveries. This great idea was brought to us by our Community Liaison Committee – thank you!

Currently, all 34 turbines are at various stages of assembly, 30 of those having the full rotor (three blades) installed. There are still 180 people working on the project daily and there have been approximately 373,000 man hours clocked to date. We aim to have the project completed in May 2015.

## IN THE COMMUNITY

### Apply now for funding!

After two successful rounds of non-profit grant funding in 2014, the South Canoe Wind Farm Sponsorship Committee is pleased to launch a **THIRD** round of funding.

The South Canoe Community Liaison Committee's Sponsorship Sub-Committee will be reviewing submissions and is currently accepting applications for **grants up to \$7,500.**

The application form can be found on our website at:
